## SDP-883 <br> Pan-tilt unit

## PURPOSE

SDP-883 pan-tilt unit for mounting and positioning a long-range optical zoom camera and thermal imaging camera.

## FIELDS OF APPLICATION

- professional video surveillance systems
- as part of integrated facility security systems
- as part of AVASNPOST, AVANPOST VK systems

## VERSION

- enclosed in a moisture-proof casing
- for outdoor installation with base mounting

## FEATURES

- dual-coordinate video camera positioning
- changing video camera angle and focus
- area scanning at a preset speed
- pointing the video camera together with the thermal imaging camera at pre-set points
- control of pan-tilt, video camera lens, video camera casing heating and thermal imaging camera via an Ethernet interface

## PECULIARITIES

- high positioning accuracy
- pan-tilt unit self-diagnostics of on power-up
